Aug 11, 2020 HuniePop on Mac macOS Mojave: It may seem as though there are multiple different games with the name "HuniePop". May 27, 2020 it will find only the 32-bit version of the game and neither the Windows or macOS 64-bit one. Oct 5, 2019 Thanks to Hunie for reaching out and letting us know that they are working on a 64-bit Windows version. We will update this article when this becomes available. Nov 24, 2019 On March 13, 2020, HuniePop released a 64-bit Windows version on their official website. With this new version, the game will be available in standard (32-bit) and Universal (64-bit) versions.

**Game content** The game follows over-the-top (OTT) millionaire Justin Lee, who must embark on a quest to save his wife Jill, who is being held captive on an island by the evil forces of the mythical creature, HuniePop. The game also features a 2D platformer called, The Huniebuns Adventure. To unlock the new "uncommon" and "rare" content of HuniePop, all players must complete two quests. Each time a quest is completed, the player is rewarded with points, which can be spent for the new content of the game.

**Plot** HuniePop's basic plot is that Justin Lee, a wealthy American single man, is held captive on a tropical island by the legendary HuniePop, a mythical creature that has a grudge against Justin for having dated and then dumped Jill, his ex-wife. He is freed from the evil HuniePop when Justin defeats him in a treasure hunt. During the event, Justin does not know Jill is trapped in the nearby King's Castle which is in need of being saved, and he also believes his girlfriend Jackie, who is trying to secure her goal of marrying him, to be a trustworthy person. As the game progresses, Justin and Jill meet various characters and have to explore the island to solve multiple puzzles, often using their wits to defeat the evil HuniePop and his minions.

**Development** HuniePop was originally planned to be made as a Windows and macOS version. In August 2015, a Mac version was announced for release in December. In August 2019, HuniePot announced that the Mac version would be released on November 12. f678ea9f9e
